Caring for your Products

CARE INSTRUCTIONS

The longevity of your branding depends on the colour as well as the environmental factors such as traffic, pollution, sunshine, wind and rain.

- Always ensure products are setup with a 360º all-round clearing so that they do not rub against walls, plants, trees, street lights etc.
- Always remember to tie down products that need to be tethered.
- To increase the life-span of your branding, take it down at night and in windy conditions where the windspeed exceeds 45 km/h.
- Remember colour lasts longer in the shade.
- If the branding is used on a daily basis, we recommend cleaning them once a month.
- In the case of rain and condensation, be sure to dry the branding before packing it away.

WASH INSTRUCTIONS

Clean with warm, soapy water (30ºC/86ºF) or a cold, gentle machine wash

Do not bleach

Steam Iron only

Do not tumble dry

Do not dry clean

Dry thoroughly before packing away

CUSTOM INFLATABLES

Your only limit, is your imagination …

Info:

Expand a Sign is constantly looking for NEW innovative ideas and have now developed unique lightweight custom-made inflatables, including: Soccer Goal Shoot Out which is perfect for school/sporting events and promotions, along with the Inflatable Column which is ideal for indoor events and exhibitions, with its rotating base and internal lighting system. The fabric printing of the custom inflatables also utilises the latest colourfast inks so Inflatables now are manufactured with bright, bold and eye-catching designs to ensure your brand is clearly visible from a distance.

CUSTOM BANNERS

You name it - we can make it ...

Info:

Banners can be custom-made in a choice of top quality polyester fabrics with optional rods, eyelets and ropes. For banners from 1m to 50m we have a solution. These are made in a choice of fabrics and are suitable as indoor and outdoor banners. We custom make hanging banners from quality polyester to suit your requirements for indoor and outdoor use. These have pockets at the top and bottom for 25mm poles. Fittings are available for instore use, which allows for a quick change of the image.
